Thanks Cecile. Not sure why Dean asked for them. My record show that you already submitted them for Oct-Dec for all three facilities. You should still pay attention to my comment regarding %removal. For a month that you discharge and you don't have a corresponding %removal calculated, it will be considered a violation. We don't want those, especially if you have done the influent monitoring as required, but it just happens to be in a different month.

John

The papers I sent you were for the Lagoons from Birch Hill & Diaperville during discharge. I have already submitted the other forms for the last quarter in January. Those were the papers that Dean Maraldo asked for and said you needed them also

Hi Cecile,

Thanks for submitting the forms. Do you have the forms for the Bad River facility? I noticed a couple of things with the forms you sent. They were not signed. They have to be signed for them to be acceptable. You also did not have any influent results for December and therefore the program did not calculate %removal. I assume you have data from either October or November regarding influent samples. Those numbers have to be used to calculate the %removal when you discharge. I would be happy to discuss this with you further. Can you also send me the lab sheet for the mercury data.

Are you working on the first quarter DMRs for 2014? Let me know if you need help.

John
